listing Description

Before handling ESD-sensitive electronic circuits and components, static charges should be adequately dissipated since friction creates static charges in people and other insulators. The ergonomic design of Monsoon Modular ESD Workstations in Bangalore boosts productivity, and all of its accessories are constructed of ESD-safe materials and appropriately grounded to create an ESD-safe working environment. These top-tier, ESD-safe industrial worktables are built ergonomically and offer all the features needed for productive, comfortable work. With Monsoon modular ESD Tables, you're assured structural modularity, ergonomics and flexibility so you can optimise your work environment.
