## About Kelly Valve Co., Ltd.

**Established in 1988**, Kelly Valve Co., Ltd. is a trusted leader in the design and manufacturing of **flow control valves and industrial valves**, with modern production facilities located in **Xiamen and Zhejiang, China**. Our reputation is built on cutting-edge R&D, rigorous quality management, and internationally recognized certifications including **ISO 9001, API 6D, and PED CE**—ensuring every product meets the highest industry standards.

### Customized Valve Solutions

While we offer a comprehensive range of standard valve products, **customization is our specialty**. Our engineering team works closely with clients to deliver tailored solutions that meet exact technical specifications and performance requirements. We serve a wide spectrum of industries, including **oil & gas, petrochemical, and power generation**.

### Integrated Supply Chain and Quality Assurance

At Kelly, our **procurement and sales teams collaborate with over 100 vetted manufacturing partners**, enabling efficient sourcing, strict quality control, and reliable delivery timelines. From **initial consultation to after-sales support**, we provide end-to-end service that ensures a smooth and satisfying customer experience.

### Global Reach and Trusted by Industry Leaders

With a presence in **over 20 countries**, Kelly Valve is a trusted partner to global giants such as **BP, Shell, and PETRONAS**. Our products are recognized for their **durability, performance, and cost-effectiveness**, making us a preferred supplier for clients worldwide.Know more about Google SEO Directory
