listing Description

There could be several reasons why you're unable to swap USDT for ETH: 1. Insufficient USDT balance 2. Trading pair not available on the platform 3. Network congestion or high gas fees 4. Platform restrictions or requirements 5. Technical issues with the exchange or wallet To troubleshoot, check: 1. Your USDT balance and fees 2. The platform's trading pair availability 3. Network status and gas fees 4. Platform requirements or restrictions If issues persist, consider trying a different platform or contacting support [why cant i swap usdt to eth](#).
